

Crane Mechanic

Summary:

Anderson Machinery is seeking a full-time experienced Crane Mechanic. The Crane Service Technician will be responsible for inspecting, maintaining and repairing various brand and models of cranes. This role will be in the shop and field as needed.

Responsibilities:

- Responsible for performing routine inspections and assisting in preventative and complex repairs on rough terrain, truck mounted, all terrain, crawler, carry deck and boom truck cranes.
- Perform scheduled preventative maintenance on equipment as directed.
- Able to work with diagnostic equipment for troubleshooting and repairs.
- Must be able to document all maintenance and repairs performed on the equipment and file records properly.
- Report details as needed for warranty coverage.
- Read, understand and interpret operating manuals, parts manuals, blueprints and wiring schematics.
- Demonstrates working knowledge of CanBus, Pat, EKS and ECOS.
- Understand and comply with all safety and environmental requirements.
- Keep work area, service truck, and tools clean, orderly, and safe.
- Inspects company rental equipment when out on other service calls where there is company equipment.
- Communicate effectively and professionally with customers, supervisors and personnel.
- Strong work ethic and commitment to quality.
- Stay up to date on all changes in various models of equipment sold and serviced by the company.
- Ability to work with minimal supervision.
- Ability to be on-call some evenings and weekends.
- Perform any other duties assigned.

Qualifications:

- At least two (2) years of experience diagnosing and repairing cranes. Vocational training may be considered in lieu of experiences.
- Experience in servicing and repairing Grove, National Crane, Manitowoc, Kobelco and/or Manitex cranes is a plus.

- Ability to read complex hydraulic and electrical schematics.
- Furnish and maintain a full set of hand tools.
- Basic computer skills.
- Physically able to stand, crawl, squat, kneel, reach, pull, push, lift 40 lbs, climb steps and ladders, and manipulate hand tools.
- Maintain a valid driver's license.
- Must be able to pass a drug screen and background check.
- A high school diploma or equivalent is required.
